CPS Student Response Clickers
Information for Students

CPS Clickers
The CPS clickers are new to Florida Coastal classrooms this fall. Please check the booklist to see if your instructors are requiring them. You need to purchase only one CPS clicker, even if you have multiple instructors who will be using them.

Authorization Codes
In addition to purchasing the CPS clickers, you may need to purchase an authorization code. If you plan to pay by credit card when you register your CPS clicker online, you do not need to purchase the authorization code from the bookstore. However, if you are using Financial Aid or paying by cash, you will need to purchase an authorization code from the bookstore.

There are two pricing options for the authorization codes - $13 for a one-semester code or $35 for a lifetime code. If you expect to be at Florida Coastal for at least three semesters, it will be less expensive to purchase the lifetime code. The prices are the same in the bookstore and online.

Class Key
For each class in which you will be using the CPS clickers, you will need a Class Key. The bookstore has a list of the Class Keys for some professors. If your class will be using the clickers and the Class Key is not on the list, then your instructor will provide the code to you.

Response Pad Serial Number
Click on the Power button on your CPS clicker and your Serial Number will display in the LCD display. You will need that number to register your clicker.

Using the Clicker

Refunds are given only if the clicker package is unopened.
