<b><i>European Union Law</i></b>	FL-FRAN-203	2	EUROPEAN UNION LAW: The European Union (EU) has been described as the "21 <sup>st</sup> century's newest superpower" as it is becoming - in many policy making areas, including competition law and law of the internal market - a more integrated and organized governmental entity. Moreover, with 27 member states and a population of nearly half a billion, the EU is a huge market and trader. However, at the same time, the EU faces many challenges such as defining its new governance, the issue of further development, and the conflictual relationship between the EU law and the national law. The EU is neither a federal State nor a supra-national State but rather somewhat of a bewildering new governmental entity.
