<i>International Health & Human Rights of Children</i>	FL-PUBL-307A	1	INTERNATIONAL HEALTH & HUMAN RIGHTS OF CHILDREN: This course focuses on the sources of public international law and the law of treaties as it relates to international human rights law. More specifically, the course will survey the application of the Convention on the Rights of a Child and its potential impact on state and local policy.	Curran	DE	Friday, March 18, 2016	DE
			Saturday, March 12- Saturday, March 19, 2016				
<i>Genetics and the Law</i>	FL-HLTH-600D	2	GENETICS AND THE LAW: This course explores developments in genetics such as stem cell research and the Human Genome Project, and issues involving reproduction, access to health care, discrimination, privacy, forensics and gene therapy. A core theme of the course is examining the relationship between genetics developments and legal issues arising from those developments.	Williams, A	DE	Sunday, March 20, 2016	DE
